

# HOTEL & LEISURE

**PROLYTE TRUSS, STAGE DEX AND THEATRE  
SOLUTIONS FOR THE HOTEL & LEISURE INDUSTRY**

# Prolyte Products Group

## Products for event solutions

Prolyte Products Group designs and manufactures products for the entertainment, hotel & leisure, theatre, exhibition and event markets. Our comprehensive product range includes trussing, stages, roof systems, barriers, hoists and drive systems. These will inspire your Conference & Banqueting departments to host and create lavish and original events, thus making optimal use of the possibilities your premises can offer.

## Products that work for you

Prolyte products distinguish themselves by combining smart and high-tech looks with flexible and practical use. A wide range of standardized products gives you the largest choice available in the market and the best value for money. The products are lightweight and user friendly by design; the truss and staging systems can be assembled by any staff with minimal prior training. Few tools are needed and storage is easy and efficient.

## Safety is a shared responsibility

As a Hotel Manager, your responsibility goes beyond the facade of an excellent event. Prolyte trusses, stage systems and construction solutions are high quality products, with a long durability and a high emphasis on safety. Prolyte helps to create awareness for the need of safe working practices for your staff members. All products comply with strict international standards and regulations.

## No compromise on quality or service

When the pressure is up and the show must go on, Prolyte is recognized as a flexible and reliable partner. Prolyte uses her wide experience and network to provide you with the required service and technical back-up on a personal basis. In an environment where hospitality is king, Prolyte is passionate never to compromise on quality or the level of service. Pulling out all the stops to deliver the best products imaginable is our main drive.

# Meeting and conference solutions

Prolyte offers the best technical solutions for all your business functions. From flexible stages for presentations, to extensive conference facilities and temporary banqueting solutions. Dazzle your corporate guests with stunning structures and tailor made venues inside and outdoors. Create a casual atmosphere for the after event leisure activities, like an entertainment stage or a dance platform.

**“The smart looking aluminium or gold colour coated truss elements combine to practically every style or type of structure needed”.**

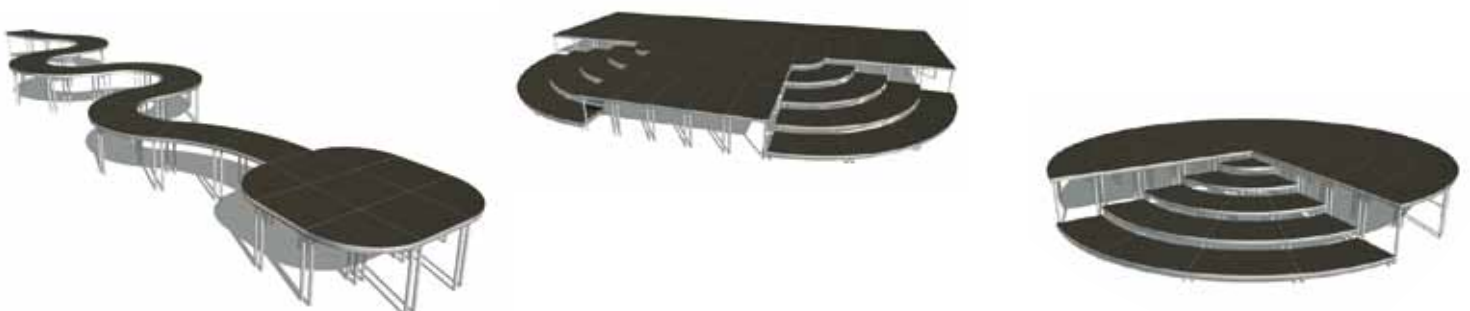

# Instant style for banqueting, weddings and parties

With Prolyte products you can create temporary constructions that turn every private function into an eye-catching celebration. Our flexible products provide inspiration to make your premises look different time and again. Make the best use of your facilities and be able to offer real flexibility in banqueting: from romantic and sumptuous dinner settings, to fashionable beverage outlets and lazy lounge areas. Special wishes and ideas are welcomed; our designers like to be challenged!

**“The luxurious dance floor changed colour, creating a new ambiance all at once. We never thought that such a simple set-up could do that”**

# Successful events made easy

Whether hosting business or private events, product launches or fashion shows; your own compact and flexible stock of truss and stage elements will give you the flexibility to build a variety of constructions and settings.

Luxurious contemporary or dignified classical styles can be arranged by using the same basic truss or stage elements. Using Prolyte products will increase your options for in-house banqueting and outdoor functions.

**“The exclusive celebration turned into an animated party when the guests were invited to a live performance, which was staged just outside the hotel bar on the beach. This added a great extra dimension to our normal facilities”.**

# In-house entertainment & concert installations

From auditorium and ball room installations to complete in-house theatre solutions, Prolyte offers turn-key project support and has a range of specific products that will turn your premises into a high-tech entertainment venue. Prolyte's product portfolio includes on-stage motion and automated fly-bar solutions, entertainment hoists and winches as well as performer fly-systems.

**“Operation of the motion systems is simple and reliable. Our own technical staff was trained to operate the complete technical installation”.**
