BDQ-6P

ACTIVE SPEAKER

The BDQ-6P is a stereo loudspeaker set that consists of a passive loudspeaker and an active loudspeaker. The BDQ-6P's easy set up makes it perfectly suited for Audio-visual applications (next to the projection screen or flat TV), monitoring or even for small presentations. Due to its stylish design, a seamless integration into every interior is assured.

The active loudspeaker is equipped with volume and tone controls, accurate clip indicators and a stereo 2 x 30 watts amplifier. This amplifier comes with High Quality balanced inputs, a stereo RCA Cinch input and a mini stereo jack input (PC, Mp3 player, ...). Both loudspeakers are magnetically shielded and offer an enhanced bass response by the DTB reflex tuning.

The BDQ-6P set comes with a 1m power cord and a loudspeaker cable (in white for the BDQ-6P/W and black for the BDQ-6P/BL to link the active loudspeaker with the passive one. Each set is available in black or white
